Course Schedule and Description

The Power of Imagination: Secrets of Creative Thinking in Chess

Thursday evenings, 5:30 - 6:30 p.m.: 10/14, 10/21, 10/28, 11/4, 11/11, 11/18

Level: Intermediate and Advanced

“Imagination is more important than knowledge... Logic will get you from A to B. Imagination will take you everywhere.” – Albert Einstein

Chess is one of the most intricate and complex games on the planet, and there is no single system of thought that will produce the correct move in every position. Overly rigid thinking is often punished over the chessboard, whereas more creative and flexible thinking is one of the key ingredients to mastery. Using examples from instructive Grandmaster games as well as his own games, Coach Lior will teach students when and how to think outside the box to surprise their opponents with strong and unexpected moves. Students will be presented with several test questions in each lesson as we discuss individual moves as well as effective long-term plans.

Money-Back Guarantee
